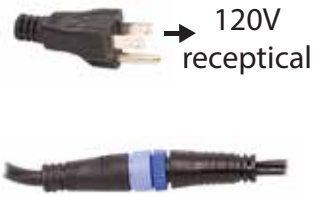
# Backlit Backdrop User Guide

## Mounting and Utilizing Backdrop

**1**

Mount backdrop to the wall with appropriate fastner with the top of the frame around 80"

**2**



Plug in Backdrop

**3**

Attach external flash to camera

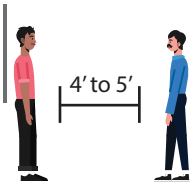
**4**

External flash slave mode should be set to 'S1' and mode select should be set to 'slave on'

**5**

Have customer stand in front of backdrop, as close to backdrop as possible.

**6**



Stand 4 to 5 feet away from customer

**7**

Use the zoom feature to align the customers head with on screen guide and take photo

**8**

PRO TIP: If a customer is not tall enough for the backdrop, have them sit on a stool. Stools are availaible in our store.
